MATERIAL: BODY: MILD STEEL ZINC PLATED UPLIFT GATE: BLACK NYLON –
 ROLLERS: MILD STEEL ZINC PLATED

HARDWARE: STAINLESS STEEL - GRADE 304

TESTING:

SALES DRAWING No: 3-S0003

NOTE: Suited for stringing all aluminium SCA and copper conductors. Rollers can be provided in aluminium or zinc plated mild steel. Roller bearings on horizontal rollers can be provided as an alternative to steel shaft. The 4 vertical rollers allow for stringing of angles which prevents damage of conductors. Nylon gates prevent uplift and are designed to prevent damage to the conductor.
