 FLEXIBLE COPPER CONNECTOR

DESCRIPTION	FLEXIBLE COPPER CONNECTOR
SIZE (mm)	VARIOUS
COLOUR	TIN
WEIGHT (kg)	VARIOUS

MATERIAL: COPPER – ELECTRO-TIN PLATED

HARDWARE: NOT APPLICABLE

TESTING:

SALES DRAWING No: FLEXIBLE LAMINATION TEMPLATE

NOTE: Used where flexibility is required between rectangular busbars or connections and terminal palms. Connectors consist of layers of high conductivity copper laminates to allow movement during expansion of the busbar system. Plates can be supplied to distribute bolt pressures over the total contact area of the connectors.
 When ordering, nominate current rating and overall length required.
