TRENCH ROLLER

DESCRIPTION	TRENCH ROLLER
SIZE (mm)	251H x 412L x 135W
COLOUR	GALVANISED STEEL
WEIGHT	4.5 kg

MATERIAL: FRAME: GALVANISED STEEL – ROLLER: ALUMINIUM

HARDWARE: N/A

TESTING:

SALES DRAWING No: 3-S0006

NOTE: The Roller is cast from high strength aluminium with bushes on a stainless steel axle. Steel frame is tubular galvanized with flat steel mounting feet to prevent movement of roller in wet conditions. Can be used in around corner situations by laying roller on its side and anchoring by driving steel rod through tubular vertical uprights
